

A951A

High-Efficiency,
Single-Stage
Gas Furnaces

QUALITY CRAFTSMANSHIP AND HIGH-EFFICIENCY PERFORMANCE YOU CAN COUNT ON.

BUILT FOR LIFE. YOURS.

AIREASE[®]

Built for life. Yours.

AIREASE

The name you and your family
can rely on for years.

During times of extreme cold weather, when you depend on your furnace most, you can rely on the AirEase® **A951A** to deliver the warmth and efficiency you need. That's because it's built on **80 years of expertise, testing and research.** Quality crafted using proven technology, the **A951A** is a furnace you can choose confidently for years of exceptional performance and energy savings.

Inside the design of an AirEase A951A furnace:

EHX™ Technology:

Every AirEase furnace is engineered and built with EHX Technology, a patented design that eliminates the hot spots that can shorten furnace life. EHX Technology makes heat exchangers more durable, and with its advanced airflow system, more air contacts the heat exchanger surface area for greater heat exchange, enhancing efficiency and comfort.

Quiet Combustion™ Technology:

Uses a smaller Btu input per burner for quieter start-up and operation while providing more even heat distribution.

Internal Monitoring:

Your AirEase A951A furnace's electronic control system prolongs system life by continuously monitoring internal components for optimum performance and fault prevention.

Dual-Fuel

The combination of a gas furnace and an electric heat pump pairs two energy sources for the perfect balance of energy efficiency and comfort.

The advanced features of the AirEase A951A work together to bring you:

CRAFTSMANSHIP

AirEase furnaces are engineered to exacting standards, using **high-quality materials** that reflect our commitment to provide lasting value. Features like EHX and Quiet Combustion Technology give you added assurance of **optimized performance** in your home.

EFFICIENCY

Designed to deliver energy-saving comfort, the **A951A** offers **efficiency ratings of up to 95% AFUE**, which can save you hundreds of dollars every year on your utility bills. (See back cover for an estimate of annual energy savings.)

COMMITMENT

AirEase's dedication to a better product is backed by a Limited Lifetime Warranty on the aluminized steel heat exchanger and a 10-Year Limited Warranty on parts.*

Industry-leading technology lets you enjoy lower utility bills without lowering your standard for HVAC performance.

PRECISE PERFORMANCE

We've engineered the **A951A** to be dual-fuel compatible, meaning your gas furnace can be combined with an electric heat pump for greater efficiency. While the heat pump provides heating and cooling in mild temperatures, the gas furnace takes over in extremely cold weather, ensuring you're saving money and staying comfortable, all year 'round.

EFFICIENCY

The **A951A** has an AFUE of up to 95%, meaning it converts a full 95% of your fuel into usable heat. This allows you to keep your home warm and cozy, while still remaining energy efficient all winter long.

5-YEAR ENERGY SAVINGS**

Savings versus less-efficient AFUE units

*Warranty applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.

**Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors.

AirEase® A951A furnaces.
Preferred by those who demand excellence in craftsmanship and efficiency.

Choosing a new furnace can be challenging. But when you select an AirEase **A951A** furnace for your home, you know you're getting proven performance and lasting quality. Choose the product preferred by those who know HVAC systems best—a quality AirEase furnace that's **BUILT FOR LIFE. YOURS.**
