

A951S

High-Efficiency,
Single-Stage
Gas Furnaces

A CONFIDENT CHOICE FOR YEARS OF EXCEPTIONAL WARMTH AND EFFICIENCY.

BUILT FOR LIFE. YOURS.

AIREASE[®]

Built for life. Yours.

The name experienced
dealers rely on.

During times of extreme cold weather, when you depend on your furnace most, you can rely on the AirEase® **A951S** to deliver the warmth and efficiency you need. That's because it's built on **80 years of expertise, testing and research**. Quality crafted using proven technology, the **A951S** is a furnace you can choose confidently for years of **exceptional operation** and energy savings.

Inside the design of an AirEase A951S furnace:

EHX™ Technology:

Every AirEase furnace is engineered and built with EHX Technology, a patented design that eliminates the hot spots that can shorten furnace life. EHX Technology makes heat exchangers more durable, and with its advanced airflow system, more air contacts the heat exchanger surface area for greater heat exchange, enhancing efficiency and comfort.

Advanced Heat Exchanger:

Made from stainless steel for maximum strength and crimped, rather than welded, AirEase heat exchangers are highly resistant to thermal fatigue and other stresses caused by repeated heating and cooling. During the testing process, they are subjected to temperatures that far exceed normal operating ranges, to ensure they will stand up to decades of use.

Quiet Combustion™ Technology:

Uses a smaller Btu input per burner for quieter start-up and operation while providing more even heat distribution.

Internal Monitoring:

Your AirEase A951S furnace's electronic control system prolongs system life by continuously monitoring internal components for optimum performance and fault prevention.

Dual-Fuel

The combination of a gas furnace and an electric heat pump pairs two energy sources for the perfect balance of energy efficiency and comfort.

The advanced features of the AirEase A951S work together to bring you:

CRAFTSMANSHIP

AirEase furnaces are engineered to exacting standards, using **high-quality materials** that reflect our commitment to provide lasting value. Features like EHX and Quiet Combustion Technology give you added assurance of **optimized performance** in your home.

EFFICIENCY

Designed to deliver energy-saving comfort, the **A951S** offers efficiency ratings of up to 95% AFUE, which can **save you hundreds of dollars every year on your utility bills.** (See back cover for an estimate of annual energy savings.)

COMMITMENT

AirEase's dedication to a better product is backed by a Limited Lifetime Warranty on the stainless steel heat exchanger and a 10-Year Limited Warranty on parts.*

Industry-leading technology lets you experience lower utility bills without lowering your standard for heating performance.

PRECISE PERFORMANCE

We've engineered the **A951S** to be dual-fuel compatible, meaning your gas furnace can be combined with an electric heat pump for greater efficiency. While the heat pump provides heating and cooling in mild temperatures, the gas furnace takes over in extremely cold weather, ensuring you're saving money and staying comfortable, all year 'round.

The heat exchanger on the **A951S** is constructed of robust stainless steel to provide even greater corrosion resistance and maximum protection against wear and tear. This extends the life of the heat exchanger for years of worry-free operation.

EFFICIENCY

The **A951S** has an AFUE of up to 95%, meaning it converts a full 95% of your fuel into usable heat. This allows you to keep your home warm and cozy, while still remaining energy efficient all winter long.

5-YEAR ENERGY SAVINGS**

Savings versus less-efficient AFUE units

*Warranty applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.

**Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors.

AirEase® A951S furnaces. Preferred by experts who demand the best in craftsmanship and efficiency.

Choosing a new furnace can be challenging. But when you select an AirEase **A951S**, you know you're getting solid performance and lasting quality. Choose the product that's best for your home—a quality AirEase furnace that's **BUILT FOR LIFE. YOURS.**
