

Advantage Oil

High-Efficiency Oil Furnaces with Beckett Burners
Downflow/Horizontal (LHF, LHR)

Affordable, reliable
heating comfort.

AIREASETM

Built for life. Yours.

Efficient and affordable home heating.

High-efficiency Advantage oil furnaces bring gentle warmth into your home with reliable heating technology. It begins with a wide range of capacities and airflow configurations to accommodate your needs. And it ends with quality and dependability that stand the test of weather and time—year after year.

Downflow/Horizontal Airflow

The downflow configuration draws cool air from the top and blows warm air to the bottom. For attic or crawlspace installations, the unit may be placed horizontally, allowing air to circulate in one end and out the other.

- **Up to 83.0% AFUE***
- **Lifetime limited warranty – heat exchanger****
- **10-year limited warranty – parts*****
- **Three downflow/horizontal front-flue (LHF) and three downflow/horizontal rear-flue (LHR) models available**

*AFUE – Annual Fuel Utilization Efficiency

Comfort Enhancements

<p>Quality Construction</p>	<p>Downflow/horizontal Advantage oil furnaces are constructed with dependable features for long product life—like our ceramic combustion chamber and stainless cleanouts for easy cleaning access. In addition to quality-constructed components, AirEase products are backed by outstanding warranties including a Lifetime limited warranty** on the heavy-duty heat exchanger and a ten-year limited warranty on parts.***</p>
<p>Energy Efficiency</p>	<p>Efficient performance is key for ensuring comfort, and that's why we've equipped our furnaces with a Beckett burner for reliable combustion and a solid-state ignition for hotter spark. In an effort to reduce energy consumption, while improving performance, our oil furnaces are also equipped with a PSC-burner motor for reduced power consumption. This results in an AFUE rating of up to 83.0%.</p>
<p>Quiet Operation</p>	<p>We start by giving our oil furnaces a fully foil-faced insulated cabinet and an acoustically insulated burner enclosure. Each furnace contains a combustion chamber for quiet, efficient performance, and a dynamically balanced blower assembly with robust bellyband mounting. Each feature does its part to keep operating sound to a bare minimum.</p>
<p>Reliable Comfort</p>	<p>AirEase downflow/horizontal oil furnaces are designed to accommodate your comfort needs. Each furnace also features a factory-supplied air filter assembly, to give you the option of adding a system to improve your indoor air quality.</p>

**Lifetime limited heat exchanger warranty applies to registered equipment only (standard 20-year with no online registration). See full warranty at www.alliedair.com for terms, conditions and exclusions.

***Warranty provides for a total of 10 years of limited warranty coverage (standard 5-year limited parts warranty, plus an additional 5-year limited extended parts warranty). Warranty must be registered online within 60 days of installation to qualify for 10-year coverage. Unregistered equipment defaults to 5-year coverage. See full warranty at www.alliedair.com for terms, conditions and exclusions.

Beckett Burner promotes cleaner combustion and provides self-diagnostic capabilities through high-performance features like a solid-state ignition, PSC-burner motor and Clean-Cut™ pump. The most popular burner in the industry!
